About

A motivated and hard-working individual with proficiency in NodeJS, ExpressJs, MongoDB, ReactJS, JavaScript, HTML, and CSS, as well as a strong ability to communicate, work in a team effectively, and remain updated with the latest technologies.
Currently looking for a possibility to share my skills, expand my skillset and exchange experience.

Projects

Cookiez API

An API for homemade dishes delivery application.

- Developed using NodeJS, ExpressJS, MongoDB, Nodemailer, Multer, and Firebase technologies.
- Collaborated with a team of 5 developers.
- Led the team to design the architecture of the project and make decisions.
- managed the time efficiently to deliver it within a month and a half.

Portfolio

A personal website.

- A place to share my projects, blogs, and experience.
- Fully responsive portfolio website.
- Implemented user interface using React and CSS for styling.

E-commerce

An online shopping store.

- Developed user interface with ReactJS and Redux for state management.
- Implemented Stripe to activate the payment process.
- Used Firebase for authentication.
